■ AWS Interview Questions – Quick Prep Notes

Here are some commonly asked AWS interview questions you should be ready for:

- 1. What is the difference between EC2 and Lambda?
- 2. Explain the concept of IAM roles and policies.
- 3. What are the different types of storage in AWS (EBS, S3, EFS, etc.)?
- 4. How does Auto Scaling work in AWS?
- 5. Explain the difference between Security Groups and NACLs.
- 6. What is the Shared Responsibility Model in AWS?
- 7. How do you secure data at rest and in transit in AWS?
- 8. What is CloudFormation and why is it used?
- 9. How do you optimize cost in AWS?
- 10. Explain the difference between RDS, DynamoDB, and Redshift.

■ *Pro Tip: Interviewers often go deeper based on your project experience with AWS, so prepare examples from real usage.*
